Dear Customers,

Chemical substances manufactured domestically or imported into the United States must be accompanied by a certification form indicating that the shipment is in compliance with the EPA's Toxic Substance Control Act (TSCA).

TSCA certification applies to imports of chemical substances, mixtures or articles that contain a chemical substance, but is not required for chemicals that are part of articles.

FAVIER TPL's products pose no health or physical hazard and are classified as "Articles" as defined by OSHA. Therefore, TSCA certification is not required.

Yours sincerely,
Favier TPL
