Subject: PFAS Substances Declaration

Date: February 26, 2026

To all our customers,

With reference to the proposal for a universal restriction of Per- and Polyfluoroalkyl Substances (PFAS), submitted to ECHA on 13 January 2023 by five Member States and currently under scientific evaluation, with a final opinion expected by the end of 2026 and a legislative decision anticipated in 2027,

S.I.G.I. srl hereby declares that its products (insulating tubes) do not contain intentionally added PFAS substances, as such substances are not present in the raw materials used, according to declarations received from our suppliers.

Please note that no specific chemical analyses are performed on finished products.

This declaration will be updated in accordance with future regulatory developments.

We remain available for further information.

Kind regards,

Quality Manager

S.I.G.I. srl
